Early Intervention & Developmental Services

Early Steps

Florida's Early Steps partners with Johns Hopkins All Children's Hospital to provide early intervention and therapy services to eligible infants and toddlers (birth to 3 years old) with significant developmental delays or a condition that may result in a developmental delay.

This federal and state program focuses on building the child's strengths and teaching the caregivers activities that will help the child learn and develop. Research shows that a child's earliest experiences play a critical role in brain development. Starting interventions early puts children on the right path to learn and develop at their fullest potential.

Florida Diagnostic and Learning Resources System (FDLRS) Gulfcoast

FDLRS Parent Services provides information, training, and support to districts and families, in order to promote effective parent participation in the education of children who are exceptional and/or have special needs.

Parent services include assistance in the development of family-friendly programs, training and support for services for children with disabilities, and the support of partnerships between schools and parents to support student achievement.
