## Accessing the Provider Portal

The link to access the Provider Portal is <https://providerservices.floridaeearlylearning.com>.

## Creating a Provider Portal Account

First-time Provider Portal users must register for an account to access the Provider Portal. Provider Portal users with multiple provider sites should begin by registering only one site location. This could be the provider's primary, flagship, or main location. Once a Provider Portal account registration request is approved for one provider site, the provider user will be able to create accounts for additional sites after logging on to the Provider Portal.

## Troubleshooting a Provider Portal Account Error Message

If the Provider Portal user receives the following message, contact the local early learning coalition to verify that the taxpayer identification number matches the DEL database.

**The license number belongs to a provider/business that is associated with a different taxpayer identification number.**

If the Provider Portal user receives either of the following messages, contact the local early learning coalition to determine if a provider portal account has already been created.

**The license number belongs to a provider that is already associated with a registered account.**

**The taxpayer or provider identification number belongs to a business that is already associated with a registered account.**

If the Provider Portal user receives the following message, contact the local early learning coalition to determine if the user name (email address) has been used in the Family Portal. The coalition may need to consult with DEL to make this determination. If a user name has been used in the Family Portal, even if an application was not created, DEL will have to remove the user name from the database so it can be used in the Provider Portal. If a provider has improperly used a user name to complete SR or VPK applications for a parent, the provider must contact that parent to get a replacement user name for that application so the provider's user name can be used in the Provider Portal. Another option is for the provider to pick another user name to use in the Provider Portal.

## Update Provider Portal User Account Information

Provider Portal users can update their user information – name and phone number – associated with their email address. If the name associated with an email address is blank, the user can add the first and last name. If a name associated with a standardized email address (e.g. [Info@JimsHouseofSmarties.com](mailto:Info@JimsHouseofSmarties.com)) needs to be changed due to a director or other staff leaving, the first and last name can be changed as long as another user has access to that Provider Portal account. If no one has access to the Provider Portal account, contact your local early learning coalition to submit a ticket to the DEL Service Desk.

Click on the gear icon.

The following will display. Click the **Account Information** button.

Enter the additional information and click **Save**.

A screenshot of the "Update User Account Information" form. The form has a title bar with a user icon and a close button (x). Below the title bar is a light blue box with the text "Please update your account details to continue". The form contains five input fields: "First Name" (with a red asterisk) containing "Jim", "Middle Name" containing "Enter Middle Name", "Last Name" (with a red asterisk) containing "Ledbetter", "Suffix" (a dropdown menu with a checkmark icon), and "Phone Number" (with a red asterisk) containing "(850) 717-8607". At the bottom of the form are two buttons: "Cancel" and "Save", with the "Save" button highlighted by an orange rectangle.

## Multiple Sites

If the Provider Portal user registered a provider site that shares a taxpayer identification number with multiple sites, all of the sites with a shared taxpayer identification number will appear in a dropdown list for that Business Administrator.

## Manage External Service Users - Renaissance VPK FAST Star Early Literacy

The Manage External Service Users page in the Provider Portal is a way to assign unique Service User IDs to authorized provider and coalition users of the Renaissance VPK Florida Assessment of Student Thinking (FAST) Star Early Literacy system. This will allow Renaissance to easily create accounts and login credentials for users of their system.

Provider authorized users are VPK Program owners, directors, or VPK directors that are responsible for the administrative tasks for FAST Star Early Literacy implementation.

Coalition authorized users are ELC FAST contacts that are responsible for the administrative tasks for FAST Star Early Literacy implementation and compliance.

To access the Manage External Service Users page in the Provider Portal, a Business Administrator navigates to the **Business** menu > **External Service Users** > **Renaissance**.

Users who are authorized to have access to the Renaissance VPK FAST system are listed.

### Associating A User to Multiple Providers

The same name and email combination can be used to authorize that user to access multiple providers on Renaissance. For example, if "John Doe johndoe@provider.com" is an existing Renaissance user for Site A, and that same user should also have access to Site B, Site B must be selected from the Sites dropdown to add the user.

Then, click the **Add User** button and repeat the steps to add “John Doe johndoe@provider.com” to Site B.

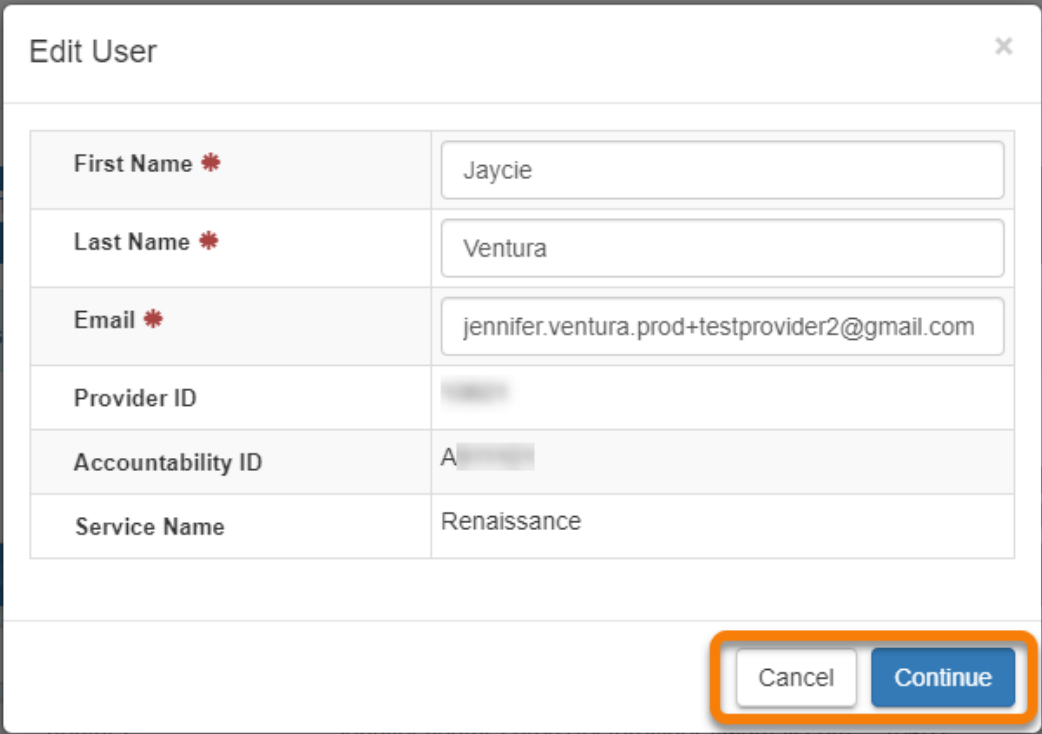

**NOTE:** This user will have the same Service User ID across all providers for which they are an authorized user.

## Editing A User

## Step 7 – Staffing & Capacity

The Staffing & Capacity tab collects information on how many children the facility will or can care for. These questions are asked by age group. For each care level, the Provider Portal user should enter the highest number of teachers and children for all classrooms for each care level. This tab does not calculate staff-to-child ratios, but stores staffing and capacity numbers for local early learning coalition review.

**Staff-to-child Ratio** is the number of children that an individual teacher is responsible for. To reflect the actual ratio, the “Teachers in Classroom” column should always be 1. For example, if you have 2 teachers with one class of 20, you should list 1 “Teacher in Classroom” with 10 “Children in Classroom” and a “Group Size” of 20. If you follow the state mandated ratios for a center or facility, please see the example below. You can omit the age groups you do not serve.

**Group Size** is the maximum number of children, by age, that can be in a single classroom at any given time. If you follow the state mandated group sizes for a center or facility, please see the example below. You can omit the age groups you do not serve.

## Step 8 – Private Pay Rates

The Private Pay Rates tab collects information on the provider's private pay rate based on unit of care and care level. The Provider Portal user must enter in the private pay rates for each "Unit of Care" and "Care Level" offered by the provider. Shaded cells do not permit entry. If care is not provided for that Unit of Care and Care Level, no entry is needed.

Providers that indicate they want to complete a contract to participate in the school readiness program on the General tab will also have a section on the Private Pay Rates tab to enter the Daily Rates for the School Readiness Program. The Provider Portal user may edit the \$0.00 amount for each "Unit of Care" and "Care Level" offered by the provider or click on the **SR Daily Rate Helper** button. The Helper button will automatically calculate the rates based on the Full Time Monthly Rates or Full Time Weekly Rates, and the Part Time Weekly Rates entered in the Private Pay Rates section. The rates are also editable after calculation. These rates will be utilized in the contracting process if the provider enters into a School Readiness contract with an early learning coalition.

**NOTE:** With Release 3.5, School Readiness providers must now answer a question regarding the family's responsibility to pay the differential between the Approved Reimbursement Rate and the Private Pay Rate.

Private Pay Rates

Enter the advertised rates (private pay rates) your program charges in the table. Do not include voucher/subsidy rates, sliding scale rates, employee discounts or any other discounted rates. Only complete the rate type for each age group that you offer.

Enter the school readiness program daily rates in the table below. These rates will be used for SR contracting purposes and to determine your SR program reimbursement rates. ## Step 9 – Closures Calendar

The Closures Calendar tab collects information on any days the provider will be closed. The Provider Portal user will select all closure days for the provider. Once selected, the date will change from white to blue. The local early learning coalition may define reimbursable holidays for the School Readiness program, which will be shaded gray. When a provider closure date and a coalition-defined reimbursable holiday are the same, the date will be shaded dark blue. A Provider Portal user does not need to include Saturdays and Sundays on the Closures Calendar if services are not provided on those days.

**NOTE:** Actual reimbursable holidays will be selected during the contracting process if the provider enters into a School Readiness contract with an early learning coalition.

# Managing a Profile as a Provider Portal User

## Provider Dashboard

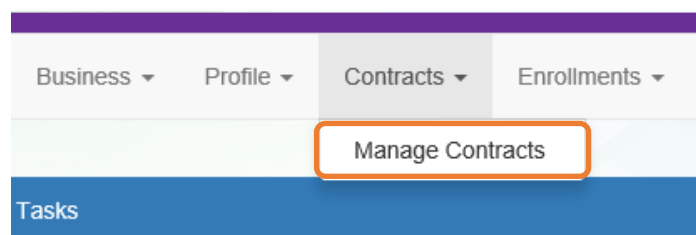

On January 1 of each program year, a button will appear next to the current program year that will allow the Provider Portal user to migrate all profile information from the current program year to the next program year (except Closures Calendar dates). To migrate profile information to the next program year, the Provider Portal user will click the **Create 2019** button. In this example, the provider is migrating profile information from the 2018 – 2019 program year to the 2019 – 2020 program year. All information from the 2018-2019 profile will migrate to the 2019-2020 profile, with the exception of the Closures Calendar. The provider can also skip a profile year and still be able to create a profile for the current year. For example, the provider had a 2017-2018 profile, but skipped the 2018-2019 profile. In order to create a 2019-2020 profile, the provider will go to the 2017-2018 profile, click the **Create 2018** button, then go to the 2018-2019 profile, and click the **Create 2019** button. The skipped profile 2018-2019 can remain Incomplete.

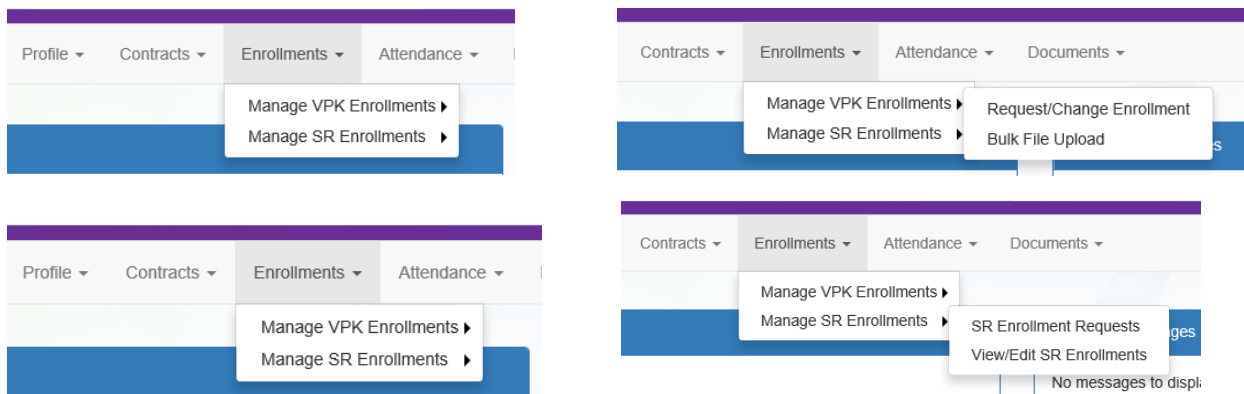

After a provider is active, a Provider Portal User can edit the Provider Profile, by clicking the Profile dropdown menu and then clicking the **Provider Profile** button.

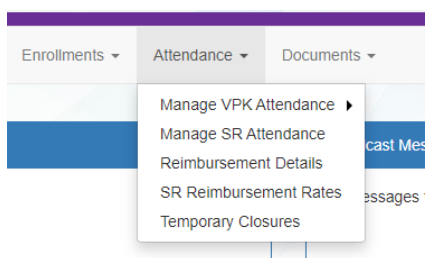

Provider Portal users can manage School Readiness and VPK contracts from the Provider Dashboard.

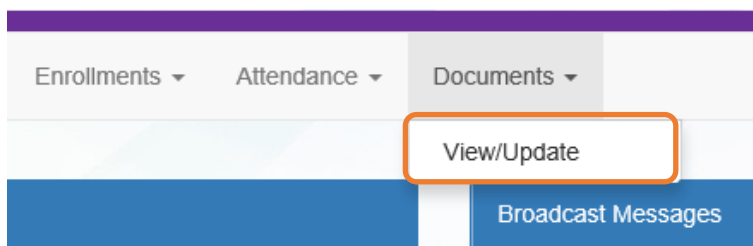

Provider Portal users can manage School Readiness and VPK enrollments from the Provider Dashboard.

Provider Portal users can manage School Readiness and VPK attendance, as well as view reimbursement details for paid attendance rosters, SR Reimbursement Rates, and Temporary Closures, from the Provider Dashboard.

Provider Portal users can click the Documents dropdown menu to access the Document Library Management function and view and upload additional documents for coalition review.

## Managing Contracts

Provider Portal users can view contract statuses and edit/download contracts through the Manage Contracts function.

## Managing Documents

Documents can be added to the Document Library for coalition review. The folder list within the Document Library is standard for all providers, but coalitions have the ability to re-name or add new folders. Documents uploaded to the Documents tab of the provider profile will also populate in the Document Library; however, documents uploaded to the Document Library will not populate in the Documents tab of the provider profile.

## Viewing/Uploading Documents

To view or upload documents in a folder, the provider portal user will click the **View Files** or **Upload New File** button, respectively.

Providers are to use the calendar to note any non-instructional days on which VPK instruction will not be delivered (such as vacations or holidays) and exceptions to normal instructional days that occur during the defined calendar start and end date. Entering Non-Instructional Days and Instructional Day Exceptions can increase or decrease the Total Calculated Hours. A calendar day can have only one Event Type: Instructional Day Exception or Non-Instructional Day. Additionally, a calendar day cannot have more than one Instructional Day Exception.

For example, if the Total Calculated Hours exceed 300 hours for the summer program type or 540 hours for the school-year program type (as shown in the example above), the user may remove a day (or more) by labeling it a Non-Instructional Day. Each Non-Instructional Day entered will deduct the hours assigned to that day, thereby decreasing the Total Calculated Hours. Instructional Day Exceptions can be used to change the hours assigned to that day (to increase or decrease the hours). For example, if the calendar is a few hours short, an instructional day's hours may be extended to increase the Total Calculated Hours. To add a Non-Instructional Day or an Instructional Day Exception to the calendar, click on that date on the calendar. Multiple days can be selected by clicking and dragging across multiple days on the calendar.

## VPK-APP for Ownership Change

If a provider has undergone a change of ownership, as indicated during their provider account registration, the initiation of a new VPK-APP under the new provider ID will copy over the most recently certified VPK-APP from the old Provider ID. This copy over will be indicated by the **Ownership Change** icon on the VPK-APP.

The screenshot shows the top header of the VPK-APP interface. On the left, it says "Kids" followed by a dropdown menu set to "2023 - 2024 (Initiated)". To the right of the dropdown is a "Change Status" button. Further right is a blue button with a house icon and the text "Ownership change", which is highlighted with a yellow border. Below the header is a navigation bar with links: "Attendance Policy", "VPK Director", "VPK Instructors", "VPK Calendars", "VPK Class(es)", "Review", and "Certify and Submit". Below the navigation bar is a blue banner with a house icon and the text "Attendance Policy Submission".

Additionally, text will be displayed on the sections of the VPK-APP to indicate the previous provider site from which the VPK-APP sections were copied.

The screenshot shows the top header of the VPK-APP interface. On the left, it says "Kids R Us" followed by a dropdown menu set to "2023 - 2024 (Incomplete)". ## Enrollments - VPK

VPK Providers may manage VPK enrollment online by going to **Enrollments > Manage VPK Enrollments**. Two options are available: Request/Change Enrollment and Bulk File Upload.

### Request/Change Enrollment

This feature allows VPK Providers to request or change enrollment for children in verified classes submitted through the VPK Provider Application. To begin, select the VPK Program Year, VPK Session, and VPK Class.

A screenshot of the 'Request/Change VPK Enrollment' form. At the top, there are two tabs: 'Request/Change VPK Enrollment' (active) and 'Bulk VPK Enrollment'. Below the tabs, there are three dropdown menus for 'VPK Program Year', 'VPK Session', and 'VPK Class', each with a '--Select--' option. To the right of these are fields for 'Class Start Date' and 'Class End Date'. Below these fields are three input fields: 'Max Class Size: 0', 'VPK Children Count: 0', and 'Non-VPK Children Count: 0'. A 'Please Note' message states: 'Based on the VPK session and instructors assigned, the maximum class size is 0. The class must have a minimum of 4 VPK children to start.' Below the note are input fields for 'Certificate Number', 'Child First Name', 'Child Last Name', and 'Child DOB' (with a date format hint 'MM/DD/YYYY'). To the right of the DOB field is a blue button labeled 'Enroll to this Class'. Below these fields is a table with columns: 'Actions', 'Certificate Number', 'Child First Name', 'Child Last Name', 'Child DOB', 'Child Age', 'Student ID', 'Anticipated Start Date', 'Actual Start Date', 'Termination Effective Date', and 'Status'. A message below the table says 'Please choose valid program year, session and class from drop downs to see results.'

With the VPK Program Year, VPK Session, and VPK Class selected, the class start date and end date appear as well as the max class size. This information is directly tied to the VPK Provider Application. For example, if there is one lead instructor for the school-year session submitted and verified on the VPK Provider Application, the max class size will be 11; if there are two instructors for the school-year session submitted and verified on the VPK Provider Application, the max class size will be 20.

Next, the VPK children count and Non-VPK children count are displayed. These two counts (summed together) cannot exceed the max class size. The Non-VPK children count is used to anonymously indicate private pay children participating in the VPK class. The Non-VPK children count defaults to zero. When the Non-VPK children count is used, the number of VPK children permitted in the class is reduced to maintain the max class size limit.

A screenshot of the 'Request/Change VPK Enrollment' form with specific values entered. The 'VPK Program Year' is set to '2018-2019', 'VPK Session' is 'School-year (540 hours)', and 'VPK Class' is 'AF18 - AM Redbirds'. The 'Class Start Date' is '08/20/2018' and 'Class End Date' is '05/17/2019'. The 'Max Class Size' is now '11', 'VPK Children Count' is '8', and 'Non-VPK Children Count' is '3'. A green message states: 'Non-VPK Children Count updated successfully for this class.' A 'Please Note' message states: 'Based on the VPK session and instructors assigned, the maximum class size is 11. The class must have a minimum of 4 VPK children to start.' The 'Enroll to this Class' button is still present. The table below now shows 'No records found for this class.'

The class roster records are also displayed. If there are no children enrolled in the class, a “No records found for this class” message displays.

If there are/were children enrolled in the class, the records are listed with the current enrollment status (Enrolled, Enrolled-Change Requested, or Enrollment Ended (Terminated)).

**NOTE:** The county on the COE does not have to match the provider's county because the child has been deemed eligible to participate in the VPK program. The enrollment process automatically updates the child's county for service to the provider's county so the corresponding early learning coalition may manage the child's enrollment with the provider.

When a matching child is found and validations checks are successful, a confirmation message appears. To continue, click Yes.

The Status column for this child is 'Enrolled', which is highlighted with an orange box.

## Managing VPK Enrollment

The class roster has several features for managing enrollment. Providers may change the anticipated start date, request to move the child to another class, remove the child entirely from the roster because they never attended, or request a termination of services.

### Change Anticipated Start Date

To change the child's anticipated state date, click **Change** within the Anticipated State Date column. A window displays. The current start date populates in the *From* field; enter the new start date in the *To* field. This feature does not require coalition approval. Click **Save** to commit the new date or click **Close** to abandon the date change and close the window. This feature is available until the actual start date is recorded through the attendance process. When the actual start date is populated in the column, the **Change** button is no longer available.

The screenshot shows the 'Change Child Enrollment' window. It contains fields for Certificate Number (VPK737-2018), Certificate Issue Date (07/07/2018), Child Name (Apple Latham), Child Date Of Birth (09/09/2013), Anticipated Start Date (08/20/2018), and Class ID (AF18 - AM Redbirds). Below these fields is a section titled 'Change Anticipated Start Date' with a 'From' field (08/20/2018) and a 'To' field (08/21/2018). The 'To' field is highlighted with an orange box. At the bottom of the window are 'Save' and 'Close' buttons. An orange arrow points from the 'Save' button in the window to the 'Save' button in the table below the window.

### Class Change

Once the child's status is *Enrolled*, a class change may be requested. To change the child's class, click **Class Change** within the Actions column. A window displays. The current class populates in the *From* field; select the new class in the *To* field and enter the Transfer Effective Date. The Transfer Effective Date should be the first day the child will attend the new class. This feature requires coalition approval. Click **Submit Request** to send the request to the coalition or click **Close** to abandon the class change and close the window.

**NOTE:** Once a class change request is submitted to the coalition, a subsequent class change request for the same child is not allowed until the initial class change request is processed by the coalition.

### Never Attended

To remove a child from a class completely because they never attended, click **Never Attended** within the Actions column. A window displays. This feature does not require coalition approval. Click **Yes** to remove the child or click **No** to abandon the removal and close the window. Removing an enrollment changes the record's status to *Enrollment Cancelled* and the enrollment process starts over for the family. The provider's VPK Director will receive an email notification to inform them the enrollment is removed; no attendance or reimbursement may be sought. The child's record is no longer listed on the class enrollment roster or attendance roster in the Provider Portal. The family will receive an email notification to inform them the enrollment for their child was cancelled; instructions are provided to log into the Family Portal to download the child's COE and select another VPK provider.

This feature is available until the actual start date is recorded through the attendance process. When the actual start date is populated in the column, the **Never Attended** button is no longer available.

**NOTE:** Be very careful with the **Never Attended** feature. If the intention is to transfer the child to a different classroom, use the **Class Change** feature. If the child attended class, VPK instructional hours were used, and reimbursement is needed, use the **Terminate** feature.

## Terminate

To terminate a child's enrollment, click **Terminate** within the Termination Effective Date column. A window displays. Enter the last day that services will be/were rendered and select the reason for termination. The Termination Effective Date is displayed below the Last Day of Services as one day after the last day of services. Therefore, the Termination Effective Date is the first day the child is NOT attending class. This feature requires coalition approval. Click **Submit Request** to send the request to the coalition or click **Close** to abandon the termination request and close the window.

**NOTE:** A child's enrollment cannot be terminated before the class start date. If the provider enters a date in the Last Day of Services that is BEFORE the class start date, an error message appears, "Termination effective date cannot be prior to the class start date. If the child never attended, click the **Never Attended** button to cancel the enrollment." Either enter a termination date that is after the class start date (and on or after the COE issue date), or click **Close** to abandon the termination request and close the window.

When the termination request is submitted, the child appears on the class's enrollment roster as "Enrolled - Change Requested." The coalition will receive the termination request for review/approval/rejection.

A. **Provider ID** = this is the provider ID for the site displayed on the Provider Portal home page/dashboard.

Provider Site Summary		Frequently-Used Links	
Business name:	Growing Up Strong, LLC	<a href="#">Bright Beginnings</a>

B. **Certification Number** = this is the child's certificate number listed on their COE. The field is not case sensitive, however, the certificate number must be entered exactly as it appears on the COE (i.e. VPK####-YYYY).

**STATE OF FLORIDA**  
**VOLUNTARY PREKINDERGARTEN (VPK) EDUCATION PROGRAM**

C. **Child First Name** = this is the child's first name listed on their COE. The field is not case sensitive.

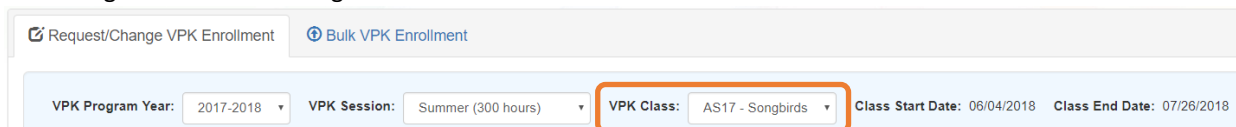

D. **Child Last Name** = this is the child's last name listed on their COE. Do not include a suffix (if any). The field is not case sensitive.

E. **Child DOB (MM/DD/YYYY)** = this is the child's date of birth listed on their COE. The field will accept M/D/YYYY as well.

F. **VPK Program Year** = this is the child's approved VPK program year listed on their COE. The field is looking for the first 4-digit year only. For example, if the VPK program year is 2017-2018, the entry would be

2017. Generally, the 4-digit VPK program year matches the year included at the end of the child's COE number.

- G. **Class ID** = this is the desired class's 4-digit ID. The class ID must be entered as the 4-digit assigned ID. Do not include the class name (if any). Looking at the example below, the entry would be "AS17" not "Songbirds" or "AS17-Songbirds."

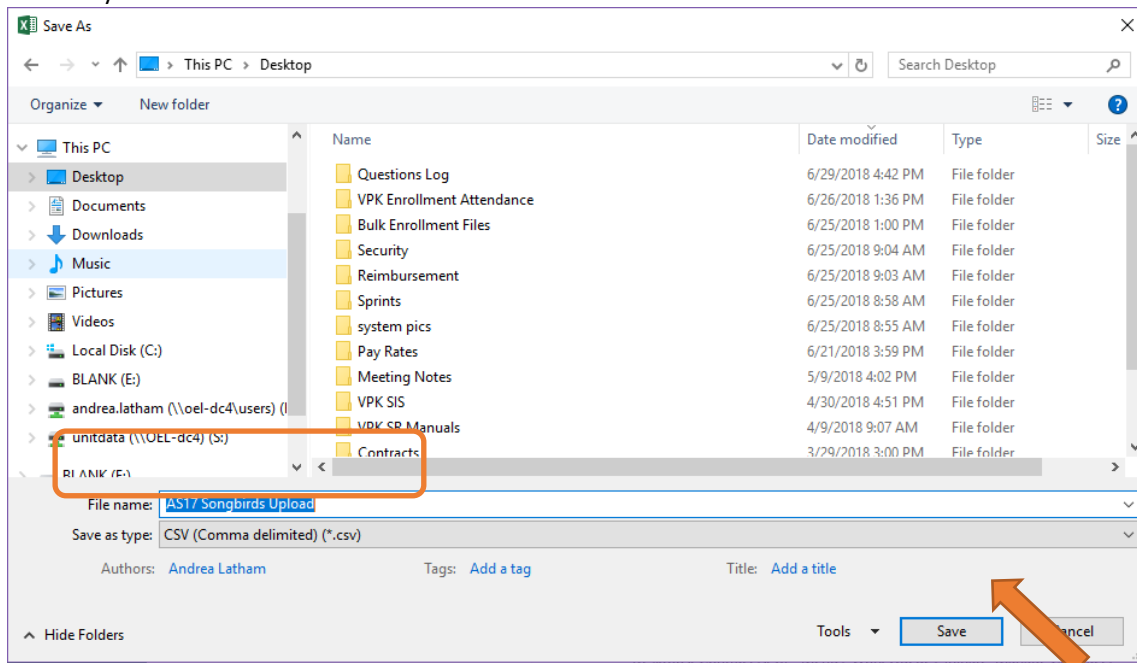

The screenshot shows a web form for VPK enrollment. At the top, there are two tabs: "Request/Change VPK Enrollment" and "Bulk VPK Enrollment". Below the tabs, there are several dropdown menus and text fields. The "VPK Program Year" is set to "2017-2018", "VPK Session" is "Summer (300 hours)", and "VPK Class" is "AS17 - Songbirds". The "Class Start Date" is "06/04/2018" and "Class End Date" is "07/26/2018". The "VPK Class" dropdown menu is highlighted with an orange box.

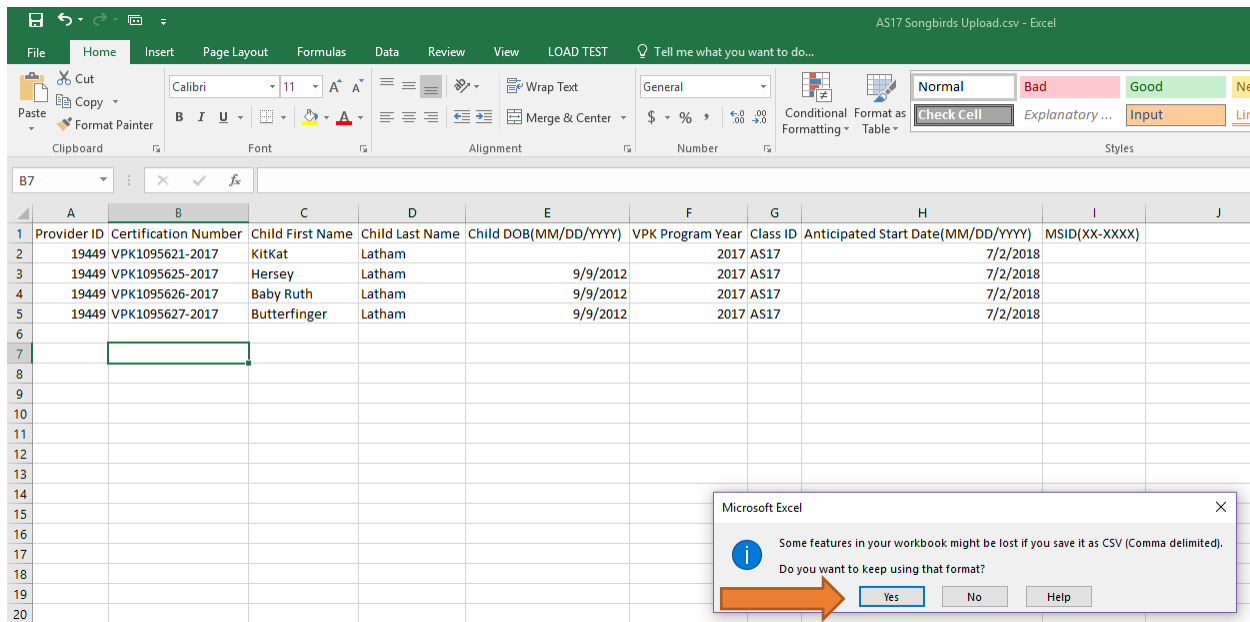

- H. **Anticipated Start Date (MM/DD/YYYY)** = this is the date the child will begin attending class. Typically, this is the class start date unless the child is starting after the class begins.  
**NOTE:** An anticipated start date cannot be before the class start date or after the class end date. And, an anticipated start date cannot be before the child's COE issue date. The field will accept M/D/YYYY as well.
- I. **MSID (XX-XXXX)** = this field is for public schools only. Public schools may enter their Master School Identification (MSID) number in a 6-digit format, where the first 2 digits are the district number followed by a hyphen and 4-digit school number. The MSID number can be used in lieu of the Provider ID in column A. Both IDs are accepted.

When the file is complete, name it and save it as a CSV file type.

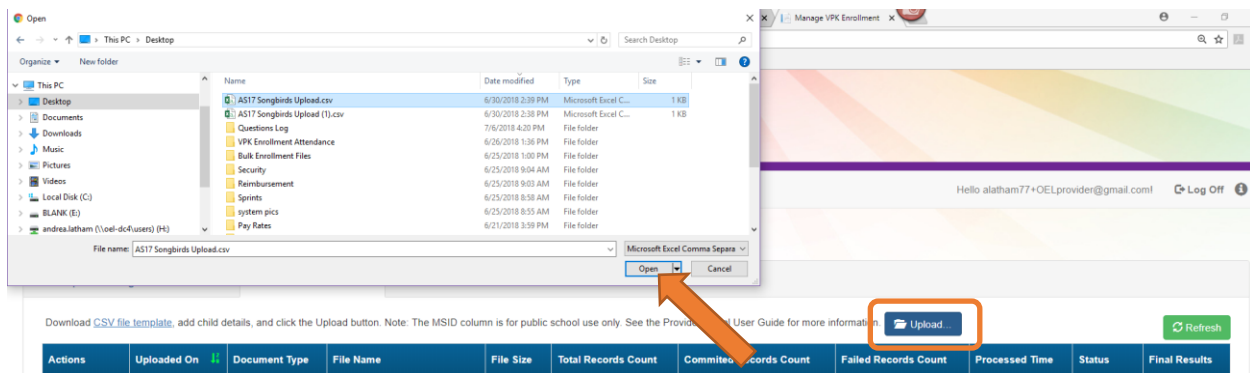

**NOTE:** It may be helpful to include the provider name and class in the file name if troubleshooting is ever necessary.

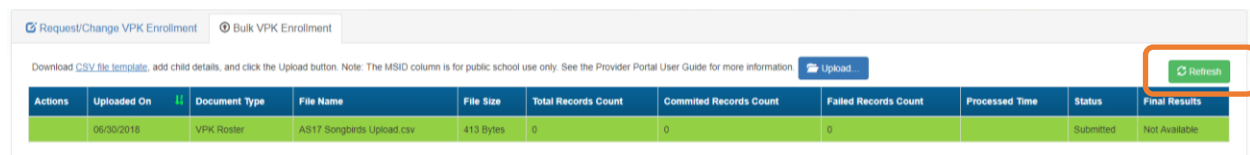

When changing the file format to CSV, Excel often displays a message to ask if you want to keep using that format. If this message appears, click **Yes**.

Click the **Upload** button. A window displays. Select your file and click **Open**.

The file upload will begin. The file details will populate on a row and turn green. Click the **Refresh** button to populate the results.

The file details will be updated. The file size, total records count, committed records count, failed records count, processed time, status, and final results are updated. The file results are also returned and can be downloaded by clicking on the **Download** button.

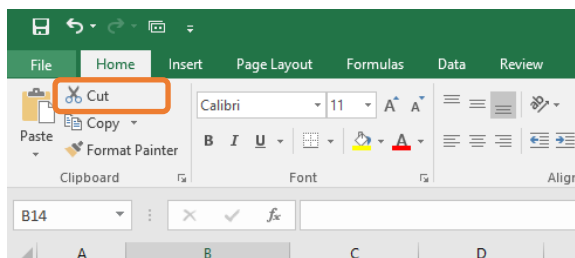

In this example, there is one failed record and three committed records. The file download will include the error message and status for each record submitted. The three committed records are now “Enrollment Submitted” and the failed record was not included because of an invalid date of birth. The same validations that occur with a manual child enrollment occur with the bulk enrollment file process.

	A	B	C	D	E	F	G	H	I	J
	Provider ID	Certification Number	Child First Name	Child Last Name	Child DOB(MM/DD/YYYY)	VPK Program Year	Class ID	Anticipated Start Date(MM/DD/YYYY)	MSID(XX-XXXX)	Error or Status

4	19449	VPK1095627-2017	Butterfinger	Latham	9/9/2012	2017	AS17	7/2/2018		Enrollment Submitted

The three committed records are displayed on the class’s enrollment roster as “Enrollment Submitted” and the coalition receives the enrollment requests for review/approval/rejection. In addition, the family receives a notification that their child’s enrollment is in progress. The same processes that occur with a manual child enrollment occur with the bulk enrollment file process.

Actions	Certificate Number	Child First Name	Child Last Name	Child DOB	Child Age	Student ID	Anticipated Start Date	Actual Start Date	Termination Effective Date	Status

Never Attended	VPK1095627-2017	Butterfinger	Latham	09/09/2012	5y		07/02/2018			Enrollment Submitted

**NOTE:** When correcting records and re-uploading the file, be sure to remove the “Error or Status” column as it is not accepted for the upload. Also, it is best to NOT include records that have already been submitted successfully as they will now error as having been processed. When removing successful records and the Error or Status column, it is best to highlight the row/column and use the cut/delete option instead of just deleting the information. Excel often retains formats even if the cells are now empty.

## VPK-20 Contract Verification

A provider must have a Certified VPK-20 contract on the Anticipated Start Date before an enrollment can be added. In the below example, the VPK application information is entered by the provider, and the **+ Enroll to this Class** button is clicked.

## Enrollments - SR

### Pending Family Acceptance Status

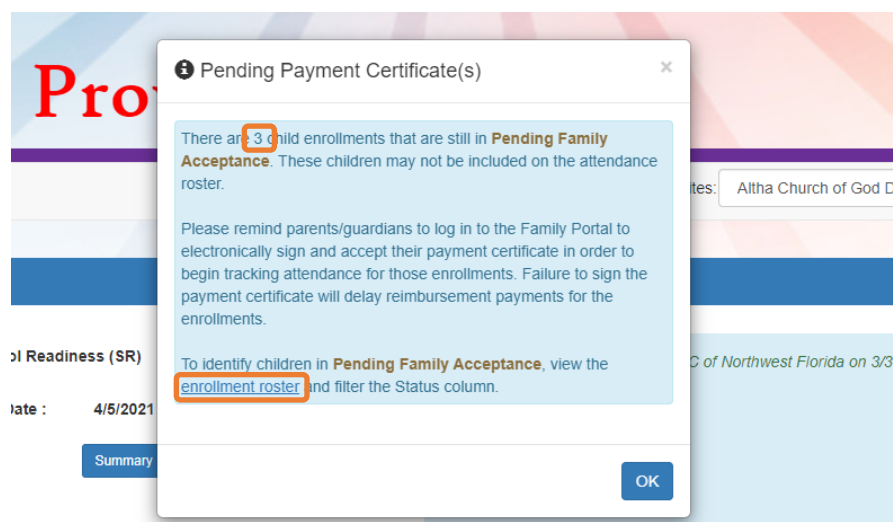

When a new School Readiness enrollment is created for an eligible child, families must accept the terms and conditions, establish their consent for developmental screening and/or child assessment, and sign the payment certificate. Families receive an email notification from DEL every five days until these steps are completed and the enrollment status changes from **Pending Family Acceptance** to **Enrolled**.

New enrollments in **Pending Family Acceptance** will not be visible on provider attendance rosters and will only appear once the family signs the payment certificate; however, there are exceptions.

- New enrollments for at-risk children (BG1) or at-risk children in relative care (BG3R) billing groups in **Pending Family Acceptance** will populate on attendance rosters
- Existing enrollments in **Pending Family Acceptance** that have already been submitted for attendance in previous months will continue to populate on attendance rosters

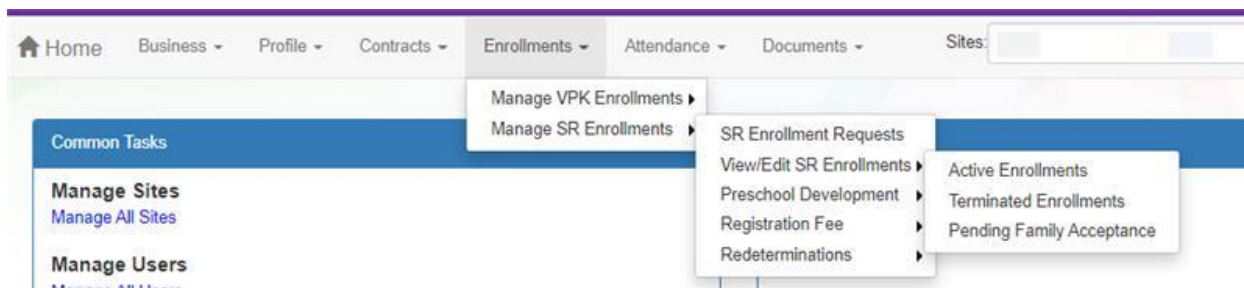

Providers will be able to process attendance and be paid for these enrollments, but not until the payment certificate is signed by the family.

If a provider has new enrollments in **Pending Family Acceptance**, when the provider accesses SR attendance, a pop-up window will display with a count of those new enrollments and a link to the Manage SR Enrollment queue.

## Viewing Enrollments in Pending Family Acceptance

To view enrollments in **Pending Family Acceptance**, navigate to **Enrollments > Manage SR Enrollments > View/Edit SR Enrollments > Pending Family Acceptance**.

## Ending Enrollments in Pending Family Acceptance

## SR Eligibility Redeterminations

The SR Eligibility Redetermination menu allows providers to view enrollments with “upcoming” or “past due” redeterminations. These queues are for informational purposes only and aid providers in knowing when an enrolled child is reaching the end of their School Readiness eligibility.

### Upcoming Eligibility Redeterminations

To see the enrollments with upcoming eligibility redeterminations, navigate to **Enrollments > Manage SR Enrollments > Redeterminations > Upcoming Redeterminations**.

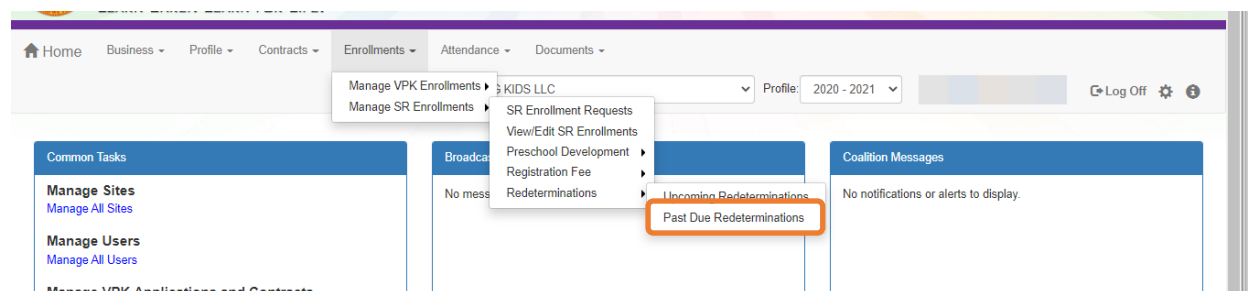

Redetermination records will only appear in the Provider Portal Upcoming Redetermination queue when:

## Temporary Closures

Temporary closures must be created when the whole site or program or specific classroom is temporarily closed due to emergency circumstances. Provider and Coalition users can initiate temporary closures.

**NOTE:** Temporary closures must be created BEFORE attendance is submitted for the month in which the closure occurs.

To add a closure, navigate to **Attendance > Temporary Closures**

To the right of these fields, it says 'School Readiness (SR)' and 'Due Date : 3/3/2023'. A 'Summary' button is located at the bottom right of the form.

## Creating a Temporary Closure for a Whole Site Closure

Complete the form. Hover over the information icons ⓘ for additional information.

- Closed Provider Site(s)** – Select the site(s) that were temporarily closed due to emergency circumstances. Each site that the user has access to is listed. Only providers with VPK or SR enrollments display in the dropdown list.  
**NOTE:** If providers were closed for different dates, they should be unchecked and have separate closure events created.
- Closure Details** – Enter the closure date range. The “Closed From” date is the first day of the closure and the “Closed To” date is the last day of the closure. A single day closure would have the same “Closed From” and “Closed To” date. No services are available on dates included in the closure date range.  
**NOTE:** The closure date range is limited to a single month. If the closure crosses into the next month, an additional closure is needed to cover that time period.

4. Individual students, not affected by a temporary closure, may be edited in SR attendance. For example, a 2 Year Old class has 6 children showing a CR for the temporary closure, but 3 of them were present on the CR days. The provider can change the CR days to an X to mark the 3 children present.

## VPK Non-Reimbursable Temporary Closures

After the coalition approves a temporary closure that has non-reimbursable (CN) days, VPK providers must take additional steps to complete the process. When the temporary closure with non-reimbursable days is set to “Processed”:

1. The provider’s VPK provider application (VPK-APP) is changed to “Incomplete” status.
2. If the class(es) associated with the non-reimbursable closure shares a calendar with another class, the system separates the calendar so that each class that shared the calendar will have its own calendar. In other words, the original class calendar is cloned as many times as needed and each cloned calendar is assigned to a class so that all classes involved in the closure have its own calendar. (One of the classes will keep the original calendar.)
  - A new cloned calendar’s name consists of the word “Revised:” followed by the original calendar’s name and the associated class’s name in parenthesis.
  - If the original calendar does not have a name, the cloned calendar’s name will only consist of “Revised:” and the associated class’s name in parenthesis.

Example:

### Original Calendar:

 A

Edit

Remove

Calendar Name: M - F 8:30 - 11:30  
Program Type: School Year (540 hours)  
Calendar Start Date: 08/10/2021  
Calendar End Date: 05/27/2022

Non-Instructional, Site Closures and Exceptional Instructional Days:  
August 2021 >

Sun	Mon	Tue	Wed

3. The non-reimbursable temporary closures for each class are automatically written to the original and/or cloned calendar as “**Non-Instructional: Temporary Closure Added**” in the correct service period month.

**NOTE:** When non-instructional temporary closure days are added to a VPK calendar, the Total Calculated Hours are reduced, so the provider must adjust the calendar to restore the calculated hours to “540”.

4. An email notification is sent to the provider advising that their VPK-APP is in non-certified status due to a temporary closure. The provider is instructed to log into the account to update and submit the VPK-APP to the coalition.

## Update VPK Class Calendar

Providers must revise their VPK class calendar(s) in their VPK-APP to make up the hours for the non-instructional day(s) due to temporary closure (CN days). In the Provider Portal, navigate to the **Contracts > Manage Contracts**. Or, on the home page Common Tasks section, click the VPK Provider Application link.

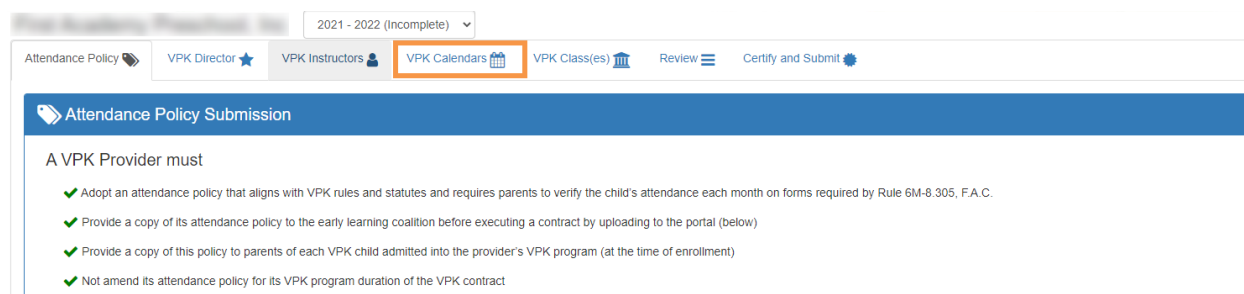

On the Manage Contracts page, click the **Edit** button for the incomplete VPK-APP.

The screenshot shows the 'Manage Contracts' page. At the top, there is a search bar and a 'Clear All Filters' button. Below this is a table with the following columns: Contract ID, Type of Contract, Contract Name, Coalition, Status, Last Updated, Action, View Contract, Effective Date, Termination Date, and Program Year. The table contains 5 entries. The first entry is highlighted with a yellow box and a red arrow pointing to the 'Edit' button in the 'Action' column.

NonInstructional Ten

Total Calculated Hours are reduced by the NonInstructional Day(s) due to the temporary closure.

Total Calculated Hours: 537.00

The Total Calculated Hours are less than the hours allotted for the VPK Program Type selected. Please correct if needed.

Total VPK Instructional Days: 179

Make adjustments to the calendar to restore the hours to 540. This can be accomplished in a variety of ways such as:

- Canceling previously identified future non-instructional days
- Extending the class end date
- Extending the time on instructional days by creating Instructional Day Exceptions with different class hours

When the changes are done and the calculated hours are restored, click the **Save** button.

**NOTE:** These steps must be completed for each impacted calendar.

When all impacted calendars are updated, click on the **Certify and Submit** tab. Complete the signature information, then click the **Submit VPK Provider Application** button.

## Attendance Rosters

After the temporary closure is processed by the coalition, the temporary closure days will show on SR and/or VPK attendance rosters as CR or CN.

**NOTE:** For VPK, if there were any CN days, the coalition must review the provider's updates to the VPK calendar and set the VPK-APP status to Certified before attendance can be done.

In the blue header, the temporary closure details display the closure dates.

## Attendance - VPK

Providers manage VPK attendance online by navigating to the Attendance menu item and selecting **Manage VPK Attendance**. Providers may submit their attendance through the web page or using a bulk file upload, similar to the bulk enrollment file upload. It is important to note that changes to enrollment, such as entering a termination date, or changes to the class schedule, such as reporting a site closure, cannot be performed in attendance. Enrollment information must be corrected in the Enrollments area. Class schedule information must be corrected in the **Contracts > VPK Provider Application** area. Any changes to source data should be done prior to submitting attendance. Coalitions may assist as needed.

## Submitting Attendance Online

Select the **Manage VPK Attendance** menu item. The VPK Attendance Roster displays, defaulting to the current service period and first class. The blue summary box to the right contains class details such as the class full name, start and end dates, and max class size. If necessary, use the dropdowns to select a different service period and/or class.

A screenshot of the 'VPK Attendance Roster' web interface. The top section contains filters for 'Program Type' (VPK), 'Service Period' (10/1/2018 to 10/31/2018), and 'Class ID' (AF18). A 'Summary' button is next to the Class ID. To the right, a blue box displays class details: 'Class: AF18-Purple Room', 'Start Date: 7/2/2018', 'End Date: 5/31/2019', 'Curriculum: Scholastic Big Day for Pre-K English', and 'Max Class Size: 11'. Below the filters is a table of enrolled children with columns for Child Name, DOB, Age, Billing Group, and Status. To the right of the table is an 'Attendance Calendar' for October 2018, showing days from Sun to Sat. A 'Select a child to edit attendance' button is next to the calendar. At the bottom, there are buttons for 'Save', 'Save & Exit', 'Cancel', and 'Submit to Coalition'.

**NOTE:** A service period is the month in which services were rendered. Child absences for the service period must be marked, saved, and submitted to the coalition for payment. A due date is displayed for each service period. Providers with multiple classes must submit an attendance roster for each class for payment.

The search feature may be used to search for any criteria included in the roster (i.e. a name, DOB, age, billing group, or status). The summary feature shows the current/saved attendance information for all children in one view.

To record attendance, click on a child's name to view their attendance for the month.

- Legend: present (X), site closed (\*), student not started (\_), student terminated (T).
- Day\_1 = first of attendance month, Day\_2 = second day of attendance month, Day\_3 = third day of attendance month, etc. In this example, Day\_1 = August 1, Day\_2 = August 2, and Day\_3 = August 3.
- Regardless of the month/year, columns for Day\_1 to Day\_31 are included in the file and are necessary for the upload; none should be removed.
- It is critical that only the content of "Day\_#" columns are changed (i.e. changing an X to an A). Attempting to add students or edit/remove system generated columns will cause errors. The file is a reflection of the enrollment information for the class when downloaded. If issues are identified, please contact the local early learning coalition for assistance.

Scroll over to the days and record absences by changing a present day (X) to absent (A). Tip: (In Excel) Open the **View** menu, select column H, and click **Freeze Panes**. This will keep the student's name and demographic information in view while scrolling through days.

## Attendance - SR

Providers manage SR attendance online by navigating to the Attendance menu item and selecting **Manage SR Attendance**. Providers may submit their attendance through the web page. It is important to note that changes to enrollment, such as entering a termination date, cannot be performed in the attendance module but rather the Manage SR Enrollment area. Also, when issues appear on the attendance roster (such as incorrect enrollment information, missing children, duplicate children, missing paid holidays, duplicate absences on the same day, etc.), the issues should be communicated to the coalition before submitting the attendance roster. Coalitions may assist in addressing the issues so that the attendance records have accurate information.

## Submitting Attendance Online

Select the **Manage SR Attendance** menu item. The SR Attendance Roster displays, defaulting to the current service period. The blue summary box to the right contains provider details and paid holiday information for the service period.

A screenshot of the SR Attendance Roster web application. The interface includes a top navigation bar with 'Enrollments', 'Attendance', and 'Documents' tabs. The 'Attendance' tab is active. Below the navigation bar, there are filters for 'Program Type' (SR), 'Service Period' (8/1/2018 to 8/31/2018), and 'Coalition' (ELC of the Big Bend Regic). A 'Due Date' of 9/6/2018 is displayed. A blue summary box on the right contains provider details: 'Attendance has NOT been submitted to ELC of the Big Bend Region.', 'Care Level' (INF, TOD, 2YR, PR3, PR4), 'Hours Of Operation' (M-F 6:00am-6:30pm), 'SR/Local Funding Students' (6), and 'Paid Holidays'. Below the filters, there is a search bar and a table of enrolled children. The table has columns for 'Child Name', 'DOB', 'Age', 'Billing Group', and 'Status'. The first six rows show children: Daphne Latham, Fred Latham, Scooby-Doo Latham, Scrappy-Doo Latham, Shaggy Latham, and Velma Latham. To the right of the table is an 'Attendance Calendar' for August 2018, showing days from Sunday to Saturday. A button 'Select a child from enrollees to edit attendance' is located next to the calendar. At the bottom of the table, there are 'Previous' and 'Next' buttons.

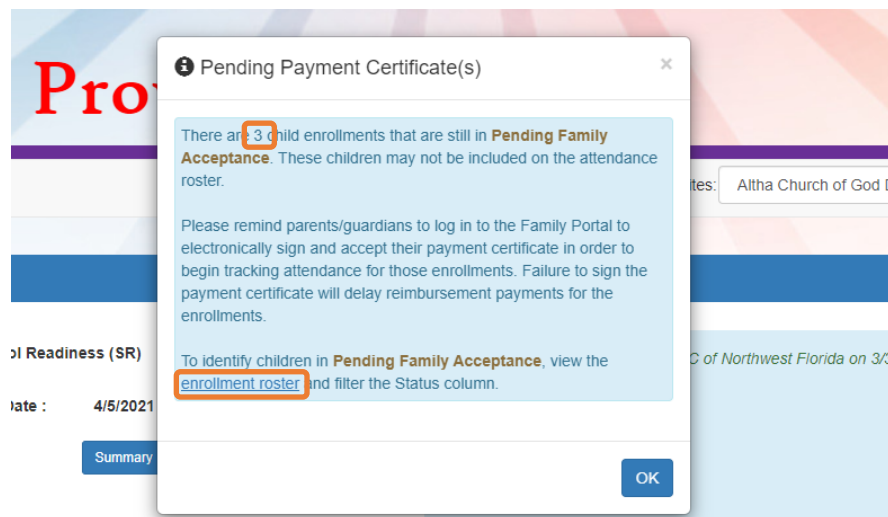

**NOTE:** A service period is the month in which services were rendered. Child absences for the service period must be marked, saved, and submitted to the coalition. A due date is displayed for each service period. Providers that contract with multiple coalitions must submit an attendance roster to each coalition.

Children that are "Enrolled" are included on the SR attendance roster.

New enrollments in “Pending Family Acceptance” will not be visible on attendance rosters and will only appear once the family signs the payment certificate; however, there are exceptions.

- New enrollments for at-risk children (BG1) or at-risk children in relative care (BG3R) billing groups in Pending Family Acceptance will populate on attendance rosters
- Existing enrollments in Pending Family Acceptance that have already been submitted for attendance in previous months will continue to populate on attendance rosters

If a provider has new enrollments in “Pending Family Acceptance”, when the provider clicks the **Manage SR Attendance** menu item, a pop-up window will display with a count of those new enrollments and a link to the Manage SR Enrollment queue.

See the Pending Family Acceptance Status section in this user guide for more information.

The search feature may be used to search for any criteria included in the roster (i.e. a name, DOB, age, billing group, or status). The summary feature shows the current/saved attendance information for all children in one view.

To record attendance, click on a child's name to view their attendance for the month.

The screenshot displays the 'Attendance Calendar' interface. On the left is a roster table with columns: Child Name, DOB, Age, Billing Group, and Status. The roster lists children like Daphne Latham, Fred Latham, Scooby-Doo Latham, Scrappy-Doo Latham, Shaggy Latham, and Velma Latham. In the center is a calendar for August 2018, showing days from 1 to 31. Days are marked with 'X' (Enrolled/Present), 'A' (Absent), 'NS' (Non-Reimbursable/Non-Scheduled Days), 'H' (Paid Holiday Days), 'T' (Terminated/Enrollment Ended), '\*' (Closed), or a blue box (Attendance has not started). On the right is a 'Child's Current Information' panel for Daphne Latham, showing DOB (3/3/2018), Age (1), Copay (\$1.25), BGrp (BG8), Status (Enrolled), and a 'Monthly Attendance Summary' with Anticipated Start Date (7/1/2018), Days Absent (0), Days Present (23), Reimbursed Holidays (0), and Non-Reimbursable Days (0). At the bottom left is a legend for the attendance codes. At the bottom right are buttons: Save, Save & Exit, Cancel, and Submit to Coalition.

- Days the site is closed are marked with an asterisk “\*”
- Days the child is not scheduled to attend are marked with “NS”. If the entire month for a child is marked “NS”, contact the local early learning coalition to correct the care days.
- Days the child is scheduled to attend are marked with an “X” for present along with his/her scheduled unit of care
- Paid holidays where a child is also scheduled to attend are marked with an “H”
- A legend is provided in the bottom right for more code descriptions

**NOTE:** The “Child’s Current Information” displayed on the right is current as of today. When working prior months, the information displayed may not align. For example, if a child’s enrollment was terminated in February 2019, the current enrollment status is *Enrollment Ended*. Each month (prior to February) will also display *Enrollment Ended* in the “Child’s Current Information” area because it is the current enrollment status. This does not impact the ability to record attendance for those prior months. Enhancements are planned to address the display.

With Release 6.0, the Person ID is now included in the “Child’s Current Information”:

This is a close-up of the 'Child's Current Information' panel. It shows fields for Name, Person ID (3684229, highlighted with a red box), DOB (9/19/2016), Age (6), Copay (\$0.02), BGrp (BG8), Status (Enrolled), and Has Special Needs (No).

To change a present day to absent, click on the “X.” A pop-up message appears to collect more information.

- Select an absent reason from the dropdown.

- b. Include a message to the coalition regarding the absence in the Note area. *(optional for most reasons)*
- c. Attach a file for supporting documentation by clicking **Choose File**. *(optional)*
- d. Click **Save** when done and the pop-up message will close.
- e. The “X” for present will now appear as an “A” for absent.

- f. Consecutive absences can be entered by using a date range. A document can be attached to the absence range and the document will be associated to every day entered in the date span.
- g. Absences entered by mistake can be changed back to present by clicking on the "A." The below pop-up message appears. To undo the absence, click the **Remove Absence** button. That day will show an "X", the absence reason is removed, and the attachment is removed.

## Submitted Attendance

Upon submission, the screen returns to the SR Attendance Roster view with the current service period displayed. Select the submitted service period from the drop down. ### Sample VPK Wrap Calculation

This is an example of a VPK wrap calculation for a child enrolled in both SR and VPK. The VPK class is 3 hours long and the child has full time care.

NOTE: The calculations are to 4 decimal places until the Gross Payment Amount, where it is rounded.

#### How are wrap rates calculated?

1. Provider Contract Approved Rate
2. Hourly Rate = Daily Rate/Max SR Hours *[calculated to 4 decimal places]*
3. Payable Hours = Max SR Hours - VPK Hours
4. SR Daily Rate = Payable Hours \* Hourly Rate *[calculated to 4 decimal places]*
5. Gross Payment Amount = SR Daily Rate \* Total Days Paid *[calculated to 4 decimal places]*

#### Example:

1. Provider Contract Approved Rate (PR4): \$24.50
2. Hourly Rate:  $\$24.50/11 = \$2.2273$
3. Payable Hours:  $11-3 = 8$
4. SR Daily Rate:  $8 * \$2.2273 = \$17.8184$
5. Gross Payment Amount:  $\$17.8184 * 20 = \$356.3680$

For this record on the 5045, the provider is reimbursed for \$356.37.
